There's
no such thing
as picking the
“wrong” partner

*Why you can STILL be
perfect for each other!*

You were meant for each other. Now what?

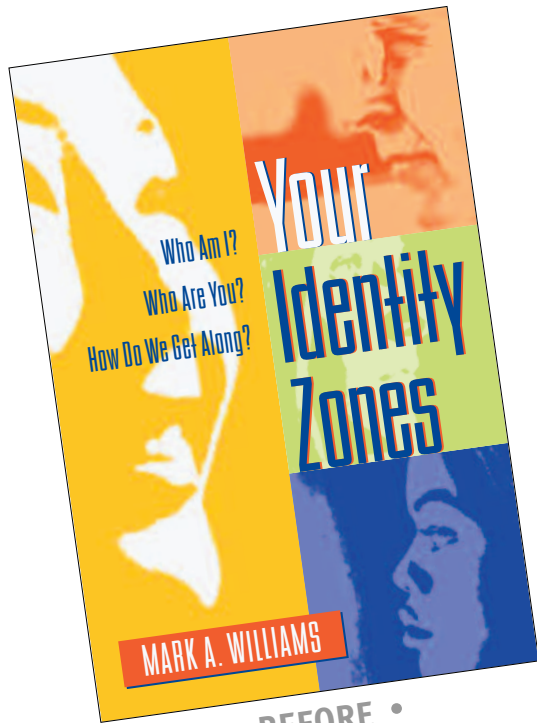

Falling in love is easy. Staying in love is another story. If the “opposites” that first attracted you are now driving you apart, *Making Real Love Happen* is the lifeline you need. The trick is to use power struggles and disagreements for the tools they are—a way to get pulled into being the person and couple you were meant to be.

Relax, you're not alone.

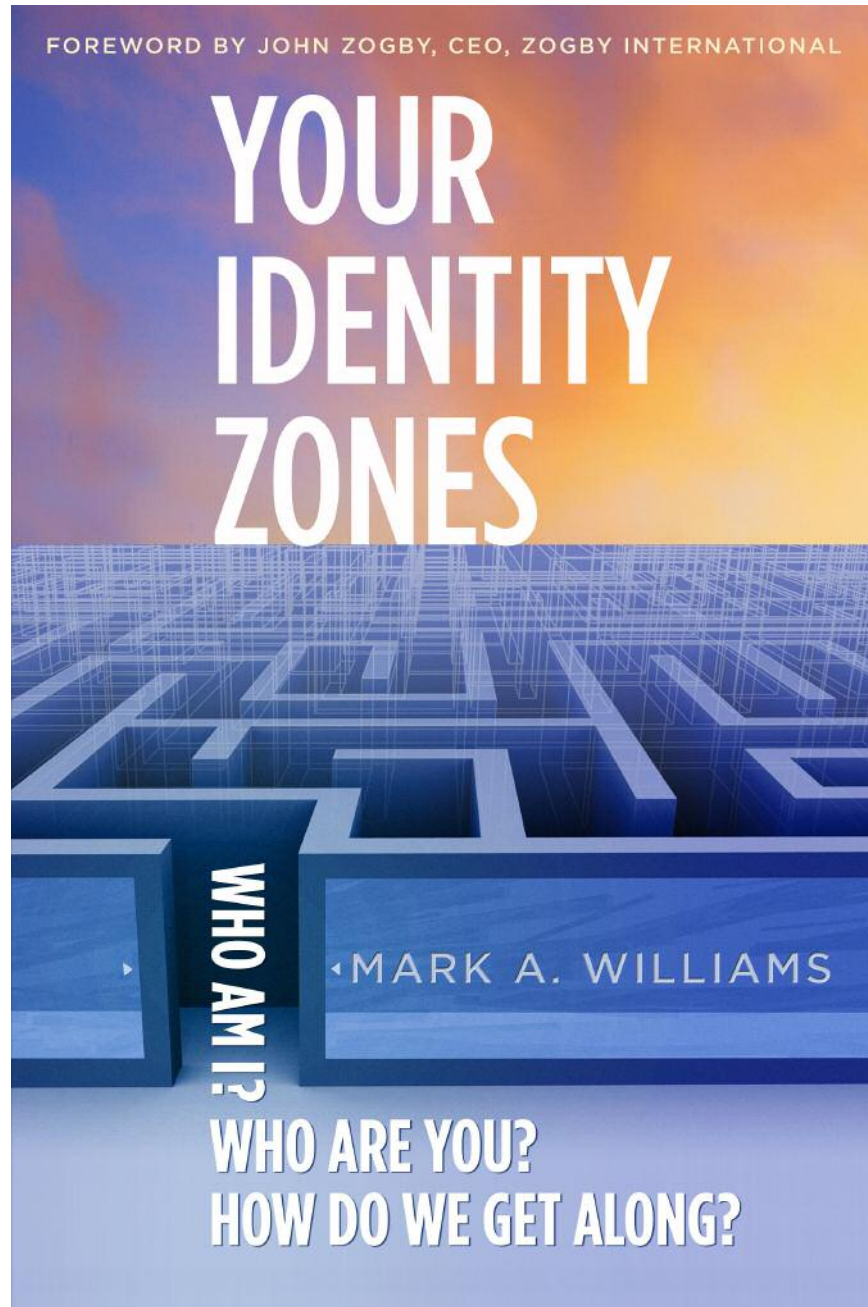

Most problems in relationships are normal and predictable. Happily, so are the solutions. Dr. Joyce Buckner has the rare gift of helping you see yourself as you are, heal the wounds that paralyze you, and reach your most desired dreams.

Fall in love again—and stay in love!

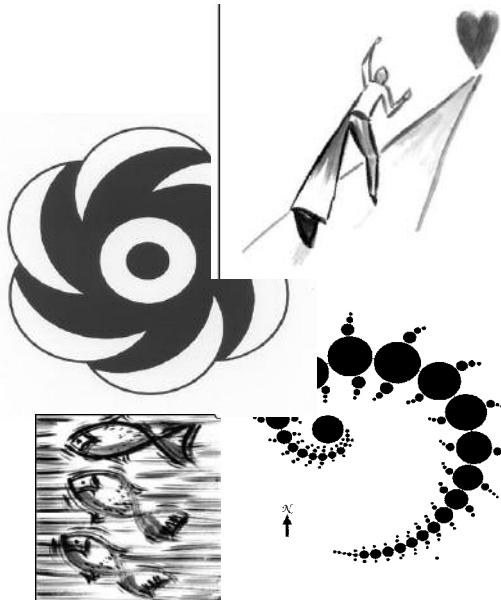

Disappointing patterns do not have to dominate your relationships. This world-renowned relationship expert shows you how to discover the power of three little words that will change the way you love—and are loved—forever.
